

Video Interviewing at ESS10 – questionnaire for NCs

All NCs planning to allow video interviews in their country must answer the questions below and return the completed form to your Country Contact at least two weeks before the start of pre-testing.

	Question	Response
Q1	What existing evidence is there of video interviewing in your country (e.g. from other surveys where this approach has been used)?	
Q2	How will the option of a video interview be presented to respondents (please note whether this will be mentioned in the advance letter and how interviewers will mention this when they make contact with sample units).	
Q3	Do you plan to use a small/specialist team to conduct video interviews or allow all interviewers to conduct video interviews?	
Q4	If you plan to use a small/specialist team, please describe your process for arranging video interviews (e.g. how cases will be passed from the face-to-face interviewer to a video interviewer).	
Q5	If you plan to use a small/specialist team, how many interviewers do you expect to include in this team?	

	Question	Response
Q6	If you plan to allow all interviewers to conduct video interviews, how will you monitor that this is being done correctly (e.g. that two screens are being used and that face-to-face interviews are still prioritised where possible)?	
Q7	How do you plan to incentivise interviewers for arranging video interviews?	
Q8	What software platform(s) do you plan to use for video interviews?	
Q9	How will you brief interviewers on video interviewing? This includes both arranging and carrying out these interviews.	
Q10	Please describe how you will test the video interviewing approach as part of your pre-testing.	
Q11	Do you have an estimate for the number of video interviews you expect to conduct at ESS R10? If so, please provide this here.	
Q12	Please provide any other comments you would like to share with your Country Contact on video interviewing here.
